WHY MAJESTIC

Innovators by nature.

Pioneers in engineering excellence.

Since 1968, *Majestic* has been leading the way in glass shower screens and enclosures. More than fifty years later our commitment to elegant, timeless and understated design remains as strong as ever.

A *Majestic* shower is an icon of beauty. It possesses an exacting, aesthetic quality all of its own – one that transcends superficial fads and trends.

Whether you seek a sanctuary of calm or refreshing invigoration *Majestic* lets your imagination run free. Large or small, modern minimalism or classic opulence, our shower collection will transform your bathroom and enhance your home.

"From our inception in 1968 we only had in mind to provide the best design and quality. This is what we do."

John King
Founder
1937 – 2018

John

THE EXPERTS' EXPERT

Enjoyed in discerning homes, landmark hotels and resorts throughout the world, *Majestic* is recognised by leading architects for exceptional shower screen design.

We work closely with designers and architects, using our expertise to ensure their exacting standards are met for prestigious projects.

"We were attracted by the classic lines and clean, simple designs of Majestic for our prestigious development, The Lancaster. With over 300 bathrooms to install we used a combination of the framed shower screens and frameless bath screens. Mixing classic and contemporary – which is exactly what The Lancaster is all about.

Orlando Rodriguez
Associate Director,
Nilsson Architects

Majestic's products were in keeping with the rest of the development, in terms of both quality and finish. And because their shower screens come in a wide range of sizes, we had a greater degree of flexibility with our bathroom designs and layouts. Majestic also provided good technical back-up throughout the project."

STAR AND GARTER MANSION

With a view protected by an Act of Parliament and famously captured by JMW Turner in his painting ‘Richmond Hill’, it’s no surprise the Star and Garter Mansion on Richmond Hill is one of the most exclusive addresses in the capital.

The meticulous refurbishment of this Grade II listed landmark provides a stunning range of luxuriously specified residences. Majestic were invited to supply Rio and Portofino enclosures as well as Genoa and Valletta bath screens from The Frameless Collection.

ISLINGTON SQUARE

Much of it built in the early 20th century, Islington Square is the transformation of the Royal Mail’s North London Mail Centre. The 4.5 acre complex features a breathtaking development characterised by three statement residential buildings. Islington Square is a love letter to the original great post office buildings.

With debonair charm and à la mode finishes within each of the apartments, new life has been breathed into this Edwardian-meets-21st-century development. Majestic were invited to supply Ponente and Rio screens as well as fully recessed Odessa sliding doors.

Survey and Installation Service

We will visit your home to survey your shower space and advise on your specification. Your enclosure will be manufactured to the precise measurements taken on site and installed by our expert installers. Painsstaking care is taken on site, with profiles adjusted to millimetre perfect lengths, to ensure you receive the best in fit and finish.

Postcodes served

Postcodes are divided into areas 1, 2 and 3. Please see the key below and map overleaf to find your postcode.

- Area 1
- Area 2
- Area 3 - price on application

All London postcodes fall within Area 1. Other postcodes not shown are in Area 3.

Tiering information

Products are grouped into tiers for pricing purposes. Please see product pages for tiering information (pages 81-136).

Things to bear in mind

Before we are able to survey your site, your shower area must be finished, with wall tiles and shower tray installed. 10mm Frameless glass is heavy, therefore it is essential that there are appropriate grounds for our fixings wherever the shower screen meets a wall or ceiling. The minimum requirement is 19mm thick ply behind plasterboard and pipes must not be run behind fixing points.

Terms and Conditions

Survey requirements are provided at the point of enquiry. Two working days notice is required to cancel and rebook appointments. Both surveys and installations cancelled with less notice will be charged at the aborted installation price. A decision maker must be present at both survey and installation for confirmation of specification and placement of enclosure, in addition to sign off both pre and post installation.

Management of the service

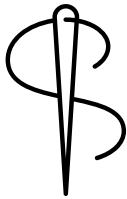

Your bathroom designer will provide Majestic with your product, address and contact details. Subsequently, we will contact you to arrange a site survey. When the site survey has been completed we will provide your designer with a comprehensive quote, taking into consideration exact dimensions and any other relevant information.

Oversized panels

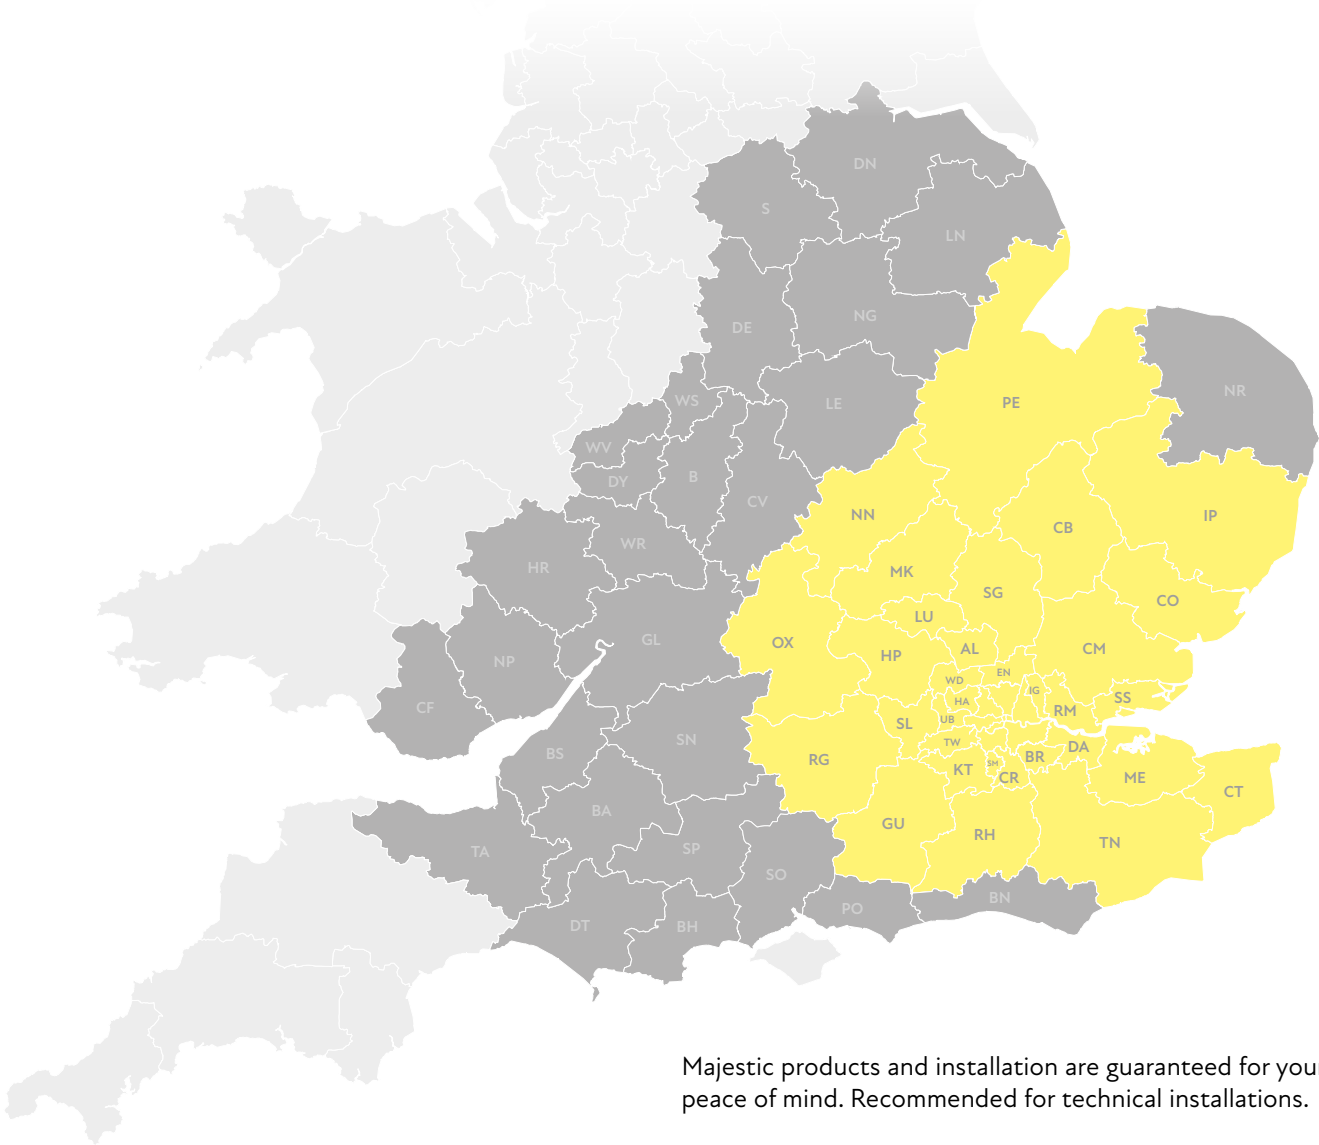

Panels over 2.8m² are considered oversized due to their weight and complexity to handle. Enclosures with oversized panels will be highlighted following the site survey. They may require a courier service delivery in addition to a 3 man installation team, therefore oversized units will be subject to a surcharge of £255.

Further Services	Area 1	Area 2
Site survey	£215	£320
Oversized panel	£255	£255
Site visit	£270	£365
On-site adjustment	£320	£430

Due to the inherent nature of the materials that make up a shower enclosure, there may be slight difference in the lustre of the profiles against that of the components.

GLASS

All Bespoke enclosures are available in clear, satin etched and crystal clear low iron glass. Tinted and mirrored glass is also available in our Frameless and Beyond Bespoke portfolios.

Technical details

All Frameless and Beyond Bespoke shower screens are made in 10mm glass. Demi Framed doors are 8mm. Our glass is toughened safety glass to BS EN 12150.

In accordance with BS EN 14428 each enclosure is marked with BS EN 12150, usually on the leading edge of the door or panel.

Glass protection

Majestic has researched all the glass protection products available in Europe and the United States. We find that EnduroShield is optimum for showers. The properties are such that we guarantee the effectiveness for five years. Only a damp micro-fibre cloth and mild detergent should be used for cleaning.

Art Glass

Geometric patterns are carved by hand deep into the surface of the glass by an atelier in South London. Developed in partnership with Italian designer Andrew Galuppi, the designs can be applied to all Majestic shower screens.

Or, consult with us to create your own designs. Prices are on application.
